In a significant move for Baltic renewable energy, Trina Solar has announced it will supply a full-scope solar plus storage system for the Raba Park in Estonia.

Commissioned shortly before the Baltic states disconnected from the Russian electricity grid, the Auvere facility is Estonia's largest battery storage installation to date.

Estonia's Energiasalv has secured EUR 11 million (USD 12m) in additional financing for its 500-MW/6-GWh pumped hydro energy storage project, including strategic investments from Alexela, Sunly, ...

Recently, the country welcomed its largest solar park, capable of powering 35,000 households. Now another such step is the development of two battery energy storage systems in Harju County, North ...

This streamlined configuration not only optimizes power transmission but also enhances overall system efficiency, allowing you to maximize the benefits of your solar energy system.

Learn about the potential of the LZY-MS1 mobile solar container system, advanced containerized solar panels, and explore how folding solar panels can be used to power shipping containers.

Industrial Solar PV Solutions by USP& E uses the latest in Solar technology to harness the energy from the sun. Our turnkey modular solutions are designed for large-scale applications and are perfect for ...

To address the energy demand challenges in different regions, ATESS delivers two main energy supply and power system configurations: off-grid energy storage systems and hybrid energy storage systems.

The company will use funding to build and operate a solar park in the country, accelerating the Baltic region's green transition and electricity independence.

25kW Off-Grid Solar Storage Unit in Estonia

Imagine your irrigation system running like a Swiss watch - precise, reliable, and completely off-grid. That's the reality for forward-thinking farmers adopting DC-coupled energy storage systems with ...
