Combining a 50kW power conversion system with 100kWh of high-performance LiFePO₄ batteries, it delivers reliable, efficient, and flexible energy storage in a compact form.

Supports self-consumption, peak-valley arbitrage, backup power, and other various scenarios. Max. DC input voltage. *The data sheet will be changed according to actual situation without prior notice.

Equipped with a smart BMS and energy management functions, this ESS supports peak shaving, load shifting, and backup protection -- helping businesses reduce energy costs while improving power ...

Discover the MEGATRON Series - 50 to 200kW Battery Energy Storage Systems (BESS) tailored for commercial and industrial applications. These systems are install-ready and cost-effective, offering ...

The Air-cooled C& I (Commercial and Industrial) Battery Energy Storage System (BESS) Cabinet is a versatile energy storage solution designed for a wide range of users across various industries.

With a capacity of 114KWH and a power output of 50KW, it ensures a stable energy supply, peak shaving, and load-shifting capabilities. The 114KWH ESS energy storage cabinet is the perfect ...

50kW/100kWh outdoor cabinet ESS solution (KAC50DP-BC100DE) is designed for small to medium size of C& I energy storage and microgrid applications.

Designed to support grid-tied and off-grid scenarios, the Hybrid ESS cabinet offers seamless integration and maximized space utilization, making it an ideal choice for growing energy demands.

This integrated cabinet combines power modules, batteries, cooling, fire protection, and smart energy management in a single rugged unit. This all-in-one outdoor ESS merges power, batteries, and safety ...

50kW Data Center Battery Cabinet for Wind Power Generation

The ESS HV 50KW+100KWH is a fully integrated, modular battery storage system. Designed for C& I applications, it combines a PCS, BMS, LiFePO4 batteries, and EMS into a single, sleek cabinet to ...
