The academics presented a series of socio-technical, economic, policy and management barriers to solar development in Albania.

Small-scale renewable assets in Albania are eligible for feed-in-tariffs guaranteed through the obligatory purchase of energy by the distribution system operator (DSO).

Earlier this year, the state-owned utility OSHEE announced plans for five solar parks, each with a capacity of up to 50 MW, across the regions of Fier, Berat, Dibra, Gjirokastër, and Fushë; ...

The Ministry of Infrastructure and Energy of Albania received four applications for solar power projects with a combined capacity of 235 MW. A proposed unit in Fier, the country's ...

A ceremony took place in Albania, 22 July 2025, to sign the agreement to build a new solar photovoltaic power plant at Belshi. The EUR42 million project is co-financed by an EU contribution ...

As a country situated in a region with abundant solar resources, Albania has enormous potential for using solar energy through photovoltaic (PV) systems. With the energy crisis repeating ...

Representatives of energy ministries, electricity distribution system operators and regulatory bodies as well as international experts attended a field trip and presentations in Albania ...

At the end of last year, Voltalia launched the construction of a 100 MW solar power system near Durrës in western Albania. Now, another 100 MW project is planned, which is expected ...

The ground-mounted system, named Project Blue, is located in the southwestern lowlands of Albania, in Sheq - Marinas Fier, one of the regions with the highest solar irradiation in the country.

Supporting solar and wind energy source projects to diversify the renewable energy portfolio, harnessing

Albania field solar power supply system

Albania's ample sunlight and wind resources for clean power generation.
