LED shipping container lights featured on this page include linear fixtures, canopy lights, and vapor-proof luminaires designed for the confined spaces of shipping containers used for storage, workshops, and ...

Shipping containers are 20--or 40-foot-long and 8-foot-wide narrow spaces with relatively short ceilings. We have designed a sufficient linear LED lighting system with a magnetic mount for the fixture.

By exploring these cost-effective lighting solutions, you can illuminate your shipping container in a budget-friendly way while still achieving optimal lighting conditions.
