How many EV charging stations are there in Bogota?

Charging Infrastructure: Law 1964 sets minimum EV charging infrastructure requirements, mandating that all Special Category municipalities, excluding Buenaventura and Tumaco, provide at least five fast charging stations and that Bogotá, the nation's capital, provides twenty by July 2022.

Are EVs coming to Colombia?

Colombia EV Sales Report: EVs Grow 159% YoY, Reach Record 8.5% Market Share in December! After years of EVs being priced well above their thermal competition, the arrival of a veritable armada of competitively priced EVs in Colombia (most, but not all, being Chinese) has resulted in the obvious consequence: people are buying them in droves.

Is EV market booming in Colombia?

From 2022 onwards, the trend in Colombia has been slow growth in the EV segment whilst the general vehicle market has been in free-fall, so market share has been slowly rising. This trend was finally broken in the second half of 2024. From then on, we've seen a booming vehicle market and massive growth in EV sales.

Does Colombia have an electric vehicle policy?

In July 2019, Colombia approved its first-ever national electric vehicle EV policy, Law 1964, which cites vehicle electrification as a pathway to achieving sustainable mobility and greenhouse gas reductions in line with the 2015 Paris Accords.
