Who owns thornova solar?

In 2025, the Thornova Solar brand and all related intellectual property for its solar module business were successfully acquired by ICE EYE. As a client-focused PV manufacturer, Thornova Solar offers a comprehensive range of solar products and components.

Who are Sunova solar & thornova solar?

Sunova Solar and Thornova Solar are Tier 1 players, focusing on energy solutions and the design and manufacture of renewable energy components, such as photovoltaic modules, solar cells, inverters and solar battery storage solutions.

What is thornova ts-bb66-500 bifacial solar?

The Thornova TS-BB66-500 is a 500W bifacial solar module featuring 66 half-cut cells. This high-performance module captures sunlight from both sides, enhancing total energy production. Its sleek black frame and bifacial design make it a powerful and visually appealing choice for commercial and residential installations.

Why is thornova solar moving away from Sunova solar?

As climate change is one of the most dramatic challenges of our time, with our solar modules we want to contribute to the preservation and defence of a planet worth living on. With this in mind, we have decided to move past the Sunova Solar brand and continue our future as Thornova Solar.

The Thornova TS-BB66-500 is a 500W bifacial solar module featuring 66 half-cut cells. This high-performance module captures sunlight from both sides, enhancing total energy production.

As a client-focused PV manufacturer, Thornova Solar offers a comprehensive range of solar products and components. From solar panels to inverters, storage systems and combined ...

Bornovo solar panel plant in Guatemala The project includes over 168,000 solar panels and 240 inverters, and will connect to the national grid via the Jaguar Energy Substation. Approved through ...
