The 500MWh BESS is expected to enter construction later this year. Image: ACT government. Battery energy storage developer Eku Energy has reached a financial close for ...

Uninterruptible power supply (UPS): deliver the reassurance of a secondary power system for vital infrastructure, guaranteeing uninterrupted power provision during blackouts or emergencies. Electric ...

Construction has begun the Williamsdale Battery Energy Storage System (BESS). The Williamsdale BESS is part of the ACT Government's Big Canberra Battery project. The beginning of ...

Located at Williamsdale in the south of Canberra, the battery will store enough renewable energy to power one-third of Canberra for two hours¹ during peak demand periods, increasing ...

Eku Energy reached financial close on the 2-hour duration Williamsdale grid-forming BESS earlier this month. The Williamsdale BESS is also part of the ACT government's Big Canberra ...

The Williamsdale BESS is expected to be operational in early 2026. For more information on the Big Canberra Battery project visit Everyday Climate Choices.

Explore the Williamsdale Battery Energy Storage System (BESS) project by Eku Energy, a 250MW/500MWh facility in Canberra. This project enhances energy security and reliability, storing ...

The 500MWh BESS will enter construction later this year. Image: ACT government. Battery energy storage developer Eku Energy has seen its development application for a ...

This 250-megawatt (MW), 500 megawatt-hour (MWh) battery energy storage system (BESS) is part of the Big Canberra Battery project and can store enough renewable energy to power ...

Canberra Uninterruptible Power Supply BESS

The Williamsdale Battery Energy Storage System (BESS) will enhance energy security and reliability by storing renewable energy for use during peak demand. As part of the ACT Government's Big ...
