Spanish construction firm GES has secured a contract to build a roughly 700MW solar-wind-storage hybrid project in Chile.

Angol, November 24, 2022 - Enel Green Power Chile, an Enel Chile subsidiary, began constructing its new La Cabaña wind farm, which also incorporates an innovative energy storage system using ...

The \$1.3 billion hybrid facility would combine 1,004 MWp of solar PV, 152 MW of wind generation, and a battery energy storage system (BESS) with 3,831.4 MWh of capacity.

November 24, 2025 - Enel Chile, through its subsidiary Enel Green Power Chile, has initiated construction of the Las Salinas battery energy storage system (BESS), part of an industrial-scale ...

Enel Green Power Chile has started the construction of the 205 MW Las Salinas battery energy storage system (BESS), part of a hybrid renewable plant combining solar, wind, and storage ...

Utility AES Andes has started construction on two renewable energy projects in Chile, with a combined 1.3GW of capacity. Located in the northern region of Antofagasta, the Pampas and...

Power utility Enel Chile has broken ground on a 205-MW battery energy storage system (BESS) at a wind and solar farm site it operates in the Antofagasta region.

Last month, AES Andes announced 1.3GW of co-located renewable energy projects in Chile, including the Pampas project, a solar-wind-storage hybrid site in Antofagasta featuring 229MW ...

Engie Chile has completed 44% of construction on a 57-MW/285-MWh battery energy storage system integrated with its 344-MW Kallpa wind farm in northern Chile, marking its first hybrid wind-plus ...
