---

Vietnam's Ministry of Industry and Trade (MOIT) has announced a new round of feed-in tariffs (FIT) for solar power, introducing location-based pricing and, for the first time, incorporating ...

The maximum price for ground-mounted solar plants with storage in the North is set at 1,571.98 VND/kWh, in the Central region at 1,257.05 VND/kWh, and in the South at 1,149.86 VND/kWh.

For solar power plants with battery storage systems, the maximum price for ground-mounted solar power in the North is 1,571.98 VND/kWh, and floating solar power is 1,876.57 ...

Vietnam's Ministry of Industry and Trade (MOIT) has announced a new round of feed-in tariffs (FIT) for solar power, introducing location-based pricing and, for the first time, incorporating energy storage ...

The results show that the solar photovoltaic (PV) system in the chosen SPP has an LCOE of 6.13 cents/kWh and an NPV of 7.52 million USD. The NPV will decrease to zero in the TLL from ...

This new price framework provides clarity and a regulatory foundation for the development and investment in solar power projects across Vietnam. It distinguishes between ...

We analyze the business implications of Decision 988/QD-BCT, which revises Vietnam's feed-in tariff (FiT) rates for solar power projects.

Explore the solar energy costs in Vietnam for 2025 with pricing frameworks and policy trends enhancing efficiency.

According to the Ministry of Industry and Trade, the pricing for solar power with integrated battery storage in 2025 may reach up to 1,875 VND/kWh, higher than traditional solar power.

# Current price of solar energy storage power in vietnam

The Vietnamese authorities released the feed-in tariff levels for ground-mounted and floating PV plants, with or without storage.
