High-capacity modular design that can be scaled from 215kWh to multi-MWh configurations. IP54-rated outdoor cabinet that withstands extreme temperatures, dust, and moisture. Real-time load ...

Our 200KWh Outdoor Cabinets energy storage system is built with IP54 protection, ensuring it can withstand harsh weather, from scorching sun to torrential rain.

It adopts intelligent temperature control and modular structure, supports flexible expansion and remote monitoring, integrates multiple safety protections, and can be efficiently used in scenarios such as ...

All-in-One Outdoor Energy Storage Cabinet integrates a 125kW bi-directional PCS inverter and 215kWh LiFePO4 battery into a rugged, space-saving solution for commercial/industrial applications.

This all-in-one cabinet features a modular design, allowing for flexible expansion and easy installation, operation, and maintenance. The unique oil immersion battery system ensures the safety of the ...

With IP54/IP55 protection, anti-corrosion design, and intelligent temperature control, they are ideal for telecom base stations, remote power supply, and containerized microgrids. Our outdoor cabinets are ...

Designed for harsh environments and seamless integration, this IP54-rated solution features a 105KW bi-directional PCS, optional air- or liquid-cooled thermal management, and parallel operation ...

DC Cabinet is an advanced liquid-cooled outdoor energy storage cabinet designed to support 200+ kW applications with rapid deployment and a minimal footprint, renowned as its integrated safety features.

With the promotion of renewable energy utilization and the trend of a low-carbon society, the real-life application of photovoltaic (PV) combined with battery energy storage systems (BESS) has thrived ...

DC Photovoltaic IP54 Outdoor Cabinet for Oil Platforms

Empower your off-grid projects and grid-support applications with a reliable outdoor battery storage cabinet from TOPBAND. Engineered for harsh climates and demanding workloads, our outdoor ...
