At Latest Updates, we're pleased to share the latest news, technologies, product updates, and case studies.

Discover the largest planned and under-construction battery energy storage projects in Europe as of mid-late 2025.

Solarpro, a leading technological provider of solutions for the generation and storage of energy in Europe, has successfully deployed the largest battery energy storage system (BESS) ...

RAZLOG, Bulgaria-- (BUSINESS WIRE)--Stationary battery manufacturer Hithium has successfully deployed the largest battery energy storage system (BESS) project in Eastern Europe to...

LSP Renewables commends the recent announcement by DTEK, which has secured UAH 3 billion (EUR67 million) in financing from a consortium of Ukrainian banks to construct one of the largest battery ...

Construction of the project was completed in just six months - significantly faster than the industry average for projects of similar scale and complexity. The accelerated timeline was driven by ...

This event will bring together key stakeholders from across the region to explore the latest trends in energy storage, with a focus on the increasing integration of energy storage into ...

The contract signed by Simtel covers the supply of a battery energy storage system, as well as the design, construction, installation, commissioning, completion, and testing of the facility.

The Gomel energy storage initiative marks a pivotal moment in Eastern Europe's sustainable energy transition. By combining cutting-edge technology with strategic grid planning, Belarus is creating a ...

Eastern Europe 5G communication base station battery energy storage system construction project

In the optimal configuration of energy storage in 5G base stations, long-term planning and short-term operation of the energy storage are interconnected. Therefore, a two-layer optimization model was ...
