What does China Energy Engineering Corporation's landmark procurement mean for energy storage?

China Energy Engineering Corporation's landmark procurement signals a shift toward market-driven energy storage, with bids reflecting aggressive cost-cutting and rising industry consolidation.

Will NDRC remove mandatory energy storage requirements for renewable projects?

The tender follows February's "Document No. 136" from the National Development and Reform Commission (NDRC), which removed mandatory energy storage requirements for renewable projects.

How big is China's energy storage?

According to the China Energy Storage Alliance (CNESA), new storage installations in China reached 13.3 GW/32.1 GWh in the first five months of 2025, up 52.5% /41.8% year-on-year. The CEEC procurement was split into three packages, totaling 25 GWh and covering systems with durations of one, two, and four hours.

Is the 25 GWh tender a turning point for LFP batteries?

The 25 GWh tender is widely seen as a turning point for the Chinese storage sector's shift from policy-driven growth to a more sustainable, market-oriented model. With system costs declining rapidly, LFP batteries are gaining traction across grid, generation, and end-user segments.

Why do companies bid for energy storage tenders? Bidding for energy storage tenders is extremely lucrative for companies of all sizes. Tendering authorities and private companies release thousands ...

Abstract chapter offers procurement information for projects that include an energy storage component. The material provides guidance for different ownership models including lease, Power ...

June 25, 2025 | Beijing, China -- China Energy Engineering Group Co., Ltd. (CEEC), one of the country's leading state-owned energy conglomerates, has officially opened the bidding for its 2025 ...

A comprehensive and professional guide to energy storage container suppliers: covering technical structure, selection standards, certification requirements, procurement & O&M essentials, ...

On June 3, 2025, China Energy Engineering Corporation (CEEC), a leading state-owned infrastructure

company, initiated a significant procurement process for 25 GWh of lithium iron phosphate (LFP) ...

Overview The lowest EPC price for energy storage in China in May 2024 was 0.96 yuan/Wh, while the average bid price for lithium iron phosphate (LFP) energy storage EPC was 1.35 ...

China Energy Engineering Corporation's landmark procurement signals a shift toward market-driven energy storage, with bids reflecting aggressive cost-cutting and rising industry ...

What is a battery energy storage system checklist? Checklist provides federal agencies with a standard set of tasks, questions, and reference points to assist in the early stages of battery energy storage ...

This lithium-ion battery marvel - think of it as a & quot;gigantic phone charger for cities& quot; -... As the photovoltaic (PV) industry continues to evolve, advancements in windhoek ...

Procurement of 25kW Mobile Energy Storage Containers for Port Terminals Why is energy storage a critical port function? Ensuring availability of these electrical resources to meet loads which are ...
