Built to order in our advanced American manufacturing facilities, and delivered directly to your project on your schedule. Advanced PV Solar Glass for high transmission, durability, and aesthetics. Super ...

Heliene (which is pronounced more like "hellion" than "hey, lean") is a solar photovoltaic module manufacturer with facilities in Ontario, Canada, and Mountain Iron, Minnesota. The company ...

Helion just raised \$425 million in fresh funding for its bid to be the first to produce electricity through nuclear fusion. That brings the total investment into Helion to \$1 billion, and it's...

Helion seeks to unlock nearly limitless energy by fusing atomic nuclei together and capturing the energy they release. For decades, researchers and companies have pursued this goal, ...

We're building the world's first fusion power plant and creating a new era of plentiful, zero-carbon electricity from fusion.

Helion completed construction of its Polaris reactor prototype at the end of 2024, and hopes to demonstrate electricity from fusion from that reactor as soon as this year, said Helion's Director of ...

We manufacture high quality solar photovoltaic modules in our American facilities. The supply chains are short, and our modules are never held up in port or customs. And we meet requirements for the Buy ...

Helion expects to have about 10 to 50 full-time employees at the Malaga site. Its focus is building a scalable, renewable power source to meet growing energy needs and reduce reliance on ...

In 2023, the tech giant signed an agreement to purchase electricity from Helion's fusion power plant starting in 2028. This deal marks the first-ever commercial agreement for fusion energy, ...
