The AES 210 cabinet is engineered with an IP55 weatherproof rating, ensuring reliable performance in harsh outdoor environments. It includes integrated thermal management, remote monitoring, and ...

The HighJoule 100KWh Outdoor Cabinet Series supports RS485, CAN, Ethernet, and Modbus protocols for real-time data transmission. The integrated EMS platform allows for remote monitoring and ...

Pytes HV48100 SE is a high-voltage outdoor LFP energy storage system. IP55 rated, wide temperature range, supports parallel expansion up to 76.8kWh, built-in fire protection, and remote monitoring.

The iCON 100kW 215kWh Battery Storage System is a fully integrated, on or off grid battery solution that has liquid cooled battery storage (215kWh), inverter (100kW), temperature control and fire safety ...

HyperCube is a liquid-cooling outdoor cabinet suitable for energy storage. It features high safety, a long lifespan, high efficiency, stability, scalability, and rapid response.

The system adopts high-capacity density lithium iron phosphate battery with 1000V platform and plate exchange liquid-cooling technology, equipped with 100kW energy storage converter, ...

Imagine an outdoor cupboard that houses all the elements needed for storing renewable energy, neatly packed in one easy-to-manage unit. That's exactly what an outdoor all-in-One energy storage ...

Discover our high-efficiency, modular battery systems with zero capacity loss and rapid multi-cabinet response. Ideal for industrial, commercial, and emergency applications, our solutions offer remote ...

With a modular PCS design and front-access outdoor cabinet, it enables reliable power supply, fast deployment, and easy expansion in both on-grid and off-grid scenarios.

High-pressure type integrated energy storage cabinet for tourist attractions

It has the characteristics of high energy density, high charging and discharging power, and long cycle life.
