How much does solar panel installation cost?

Let's look at how much solar panel installation costs. The cost of solar panels varies hugely depending on the type and size of the system you require. A 4kW photovoltaic (PV) system, suitable for a 2-3 bedroom house typically costs around $\text{R}8,000$ (incl. installation). Including an inverter and solar battery takes the average cost to around $\text{R}12,000$

How much does a 6 kW solar panel installation cost?

The average 6-kW residential solar panel installation is \$17,852 before incentives. Learn about cost factors, financing options, tax breaks and more.

Will adding a solar battery increase my solar panel installation costs?

Adding a solar battery will increase your solar panel installation costs. Generally speaking, it's more cost-effective to install your solar battery system at the same time as your solar panels (rather than adding it later on). Read our solar battery storage system cost guide for more detailed information.

How can I offset my solar panel installation cost?

To help offset your solar panel installation cost, you can get paid for the solar energy you generate but don't use through the Smart Export Guarantee (SEG). Offset your solar panel costs with SEG payments. Depending on the supplier you choose, you can generally earn up to 6.4p per kWh or around $\text{R}360$ a year.
