What is a field cabinet?

Field cabinets are engineered to protect sensitive data network and electrical equipment in demanding outdoor environments, such as road traffic management and intelligent transport systems (ITS). These enclosures provide robust protection against harsh weather, corrosion, and physical impact, ensuring reliable operation in heavy-duty applications.

What are field cabinets made of?

Constructed from powder-coated galvanised steel, our field cabinets meet industry standards with IP66 dust and water ingress protection and IK10 impact resistance. To enhance security, they feature recessed doors that prevent tampering and unauthorized access, along with secure locking mechanisms.

Why should you choose a field cabinet?

These enclosures provide robust protection against harsh weather, corrosion, and physical impact, ensuring reliable operation in heavy-duty applications. Constructed from powder-coated galvanised steel, our field cabinets meet industry standards with IP66 dust and water ingress protection and IK10 impact resistance.

What colour is a T33 field cabinet?

T33 Smoke Blue. (A full range of other colour options are available upon request. Refer to Electrical Enclosure Colours.) 5 Year manufacturer's warranty from the date of delivery. Field Cabinets house sensitive electrical equipment outdoors including for traffic management and intelligent transport systems.
