News from the photovoltaic and storage industry: market trends, technological advancements, expert commentary, and more.

Explore the latest solar panel technology, new solar panel technology, and solar energy technology trends improving efficiency.

We are here to bring you the latest solar news, progress and innovations, and everything else that you need to and want to know about the solar industry.

As of the first quarter of 2025, the U.S. residential solar segment has added about 1,106 MWdc, bringing cumulative domestic solar power capacity to around 239 GW-- enough to power ...

Solar accounted for 58% of all new electricity-generating capacity added to the US grid through the third quarter of 2025, with more than 30 GW installed. Solar and storage, combined, ...

Join us at Solar Power World as we cover the world of solar news on technology, development and installation on a daily basis.

Solar power Solar and wind power has grown faster than electricity demand this year, report says A new analysis of solar and wind power shows its generation worldwide has outpaced electricity demand ...

Solar Energy Information. Read the latest news and techniques for efficient solar photovoltaic power, new solar energy systems and more.

What's the latest solar panel technology in 2025? Remarkable advancements in materials, design and efficiency are shaping the solar industry this year. Here are the top nine solar panel ...

Latest information on photovoltaic panels

All the top recent events in solar thermal and photovoltaic market. The latest research, innovative technologies, industry trends and forecasts, financial news, large projects, governmental ...
