With the latest round of qualifiers done and dusted, UEFA and Concacaf sides punched their tickets to the FIFA World Cup 2026(TM) and claimed the final direct spots ahead of the Play-Off ...

To exercise this right, they must notify their club in writing by 1 August 2025 at the latest. This deadline ensures that such decisions are made in a timely and transparent manner, helping to...

In recent times, the significance of renewable energy generation has increased and photovoltaic-thermoelectric (PV-TE) technologies have emerged as a promising solution. However, the ...

The latest update to the Team Base Camp brochure brings the total number of options for qualified and aspiring national teams to consider as the build-up to the first-ever 48 nation FIFA World...

The December 2025 edition of the FIFA/Coca-Cola Men's World Ranking - the last of the year - has landed following the latest 42 international fixtures, with the FIFA Arab Cup Qatar 2025(TM) having...

Read the latest Research articles in Solar thermal energy from Scientific Reports

Spain oust the USA from first place in the latest FIFA/Coca-Cola Women's World Ranking France fare well in a turbulent top 10 Bangladesh are the biggest climbers

The highest-profile change comes right at the top, with UEFA EURO 2024 winners Spain rising one place to 1st, a mark they have not occupied in the men's game since back in June 2014. In ...

Recent innovations in nano-enhanced phase change materials (PCMs), hybrid TES configurations, and intelligent system integration are highlighted. The role of advanced computational ...

FIFA has today published the 2025 edition of its Legal Handbook, which again features a unique overview of

Latest research on solar thermal power generation

the latest regulations, legal guides, documents and circulars issued by world ...

This paper introduces the operating principles and system structure of solar thermal power generation technology, summarizes the advantages and disadvantages of various power generation ...

In recent times, the significance of renewable energy generation has increased and photovoltaic-thermoelectric (PV-TE) technologies have emerged as a promising ...

It aims to bring together the latest research, innovations, and practical applications in the field, showcasing the work of scientists, engineers, and professionals dedicated to advancing solar ...

The platform will be updated regularly to incorporate the latest information on players who have received approval to switch association. The platform is publicly accessible via legal fa .

The future and development prospects of solar thermal power generation technology are finally discussed.

Based on the latest FIFA/Coca-Cola Men's World Ranking, the draw procedures for both the FIFA World Cup 2026 Play-Off Tournament and European Play-Off Draw have been updated.
