-----

Installing solar energy at your home is an investment in a cleaner, plentiful energy supply, and accessing rebates and tax incentives make installation more affordable.

Discover Lesotho's 70 MW Letsatsi Solar Power Station. Developed by Scatec, this landmark project boosts energy independence, creates local jobs, and powers a sustainable future.

MITEI's three-year Future of Energy Storage study explored the role that energy storage can play in fighting climate change and in the global adoption of clean energy grids.

The project, owned and operated by AES Distributed Energy, consists of a 28 MW solar photovoltaic (PV) and a 100 MWh five-hour duration energy storage system. AES designed the unique DC ...

With 90% of its electricity currently imported from South Africa and frequent power cuts disrupting hospitals and schools, this small kingdom's 100MW solar-plus-storage initiative isn't just about ...

Summary: Lesotho's growing energy demands and renewable energy potential make lithium battery storage systems a game-changer. This article explores applications, challenges, and success stories ...

Development of new energy storage industry in Lesotho The 14th Five-year Plan is an important new window for the development of the energy storage industry, in which energy storage will become a ...

The project, considered the world's largest solar-storage project, will install 3.5GW of solar photovoltaic capacity and a 4.5GWh battery storage system. The project has commenced in November 2024.

LEGCO has embarked on three-year soil conservation project through the support of the Government of Lesotho. The project aims to combat the emergence of gullies within and around ...
