Our company is a leading provider of 700W super high efficiency high power ...

630W double-sided double-glazed PV module adopts high-efficiency monocrystalline silicon cells with double-sided power generation capability, featuring high transmittance, long service life and low ...

Our company is a leading provider of 700W super high efficiency high power NTOPCON double-sided solar modules. We can assure our customers of our products with high quality, best services and a ...

Adopted SunEvo latest S-TOPCo 2.0 technology, No polysilicon wrap around, Full electrical isolation, Zero leakage current; Much Safer for roof. Higher power output even under low-light environments ...

The products support customised designs such as single-sided, double-sided and double-glazed, with an output power of 560-605w. The non-destructive scribing technology is used to significantly ...

Specialty Transformers: For solar/wind farms, mining, and harsh environments. Gas-Insulated (GIS) & Air-Insulated (AIS) Switchgear: 10kV-40.5kV, with intelligent monitoring options.

With a power output ranging from 645W to 670W, this double-sided monocrystalline module leverages advanced cell arrangement (132 cells in a 12x11 layout) to deliver superior performance under ...

Compared to traditional single glass modules, double glass modules offer significant advantages, particularly in terms of efficiency and durability. The rear glass layer can absorb reflected light, ...

In addition, the glass structure of the double-glass double-sided module is more resistant to abrasion and corrosion, IP66, and the fire rating has also been upgraded from C to A of common crystalline ...

At present, the company's main components such as large-size multi main grid half, double-sided double glass

Monocrystalline silicon double-sided double-glass solar modules

and high-efficiency half have considerable market competitive advantages in capacity ...

The new double-sided n-type Silk® Nova Duetto high efficiency glass/glass panel with 132 half-cut cells, with a power range from 620 to 630 Watts, completes the FuturaSun model range.
