An Off Grid solar Container unit can be used in a host of applications including agriculture, mining, tourism, remote islands, widespread lighting, telecoms and rural medical centres.

WaterSecure by RPS provides the ultimate solution for bringing off-grid power to your container. Our all-in-one WaterSecure kit transforms your shipping container into a functioning off-grid enclosure.

The Off Grid Container also transports the solar PV panels and mountings, the only part of the product which has to be assembled at the customer's site. The on-site installation is undertaken by the Off ...

Our containerised off-grid solar solutions are fully customizable, and our team of experts provides end-to-end support, from site assessment to installation and maintenance.

We are offering mini renewable power stations in a Off-Grid shipping Container ready to be deployed worldwide. These include solar PV panels and mountings.

These rugged, self-contained systems integrate large solar arrays, advanced battery storage, and high-capacity fuel cells -- with optional diesel redundancy when regulatory or client requirements demand it.

Our team holds active electrical licenses across multiple states, manages large-scale commercial solar installations, and understands the real-world demands of off-grid power systems.

Many customers explore off grid solutions due to the simplicity and maneuverability of our containers. As long as a truck can get to the plot of land, we can drop your container. Now you have the option to go ...

Solar energy containers encapsulate cutting-edge technology designed to capture and convert sunlight into usable electricity, particularly in remote or off-grid locations. Comprising solar ...
