The Purlin Connector made of galvanized steel enables fast, secure connection of two purlins with four screws - ideal for stable PV ground-mount systems.

The size or dimensions of the solar panels, measured in height by width, will determine the number of solar panels that will fit on your roof and the wattage of solar panels ...

These parts are to complete the fixing of, solar panels onto trapezoidal metal beam roof. We offer these with end or mid clamps in black or silver anodized finish c/w self tapping screws.

When mounting on corrugated and sandwich roofs, you fix the photovoltaic installation directly to the purlins of the roof construction. For wooden purlins, you need the stock screw set for wood and for ...

Made of high quality aluminium and stainless steel components ensures optimum strength and long life. Products are pre-assembled to reduce installation time and give a cost effective solution. Versatile ...

These parts are to complete the fixing of, solar panels onto ...

Our patented Mini Clip has a solid grip on PV panels.

About Drill-Tec(TM) #12 Purlin Fasteners The specially designed & #190;" long pilot point prevents the existing metal roof panel from "jacking" up the threads during the drilling operation, thereby reducing ...

Let's face it - most people get starry-eyed about photovoltaic panels' efficiency ratings while completely ignoring their purlin connection method. It's like buying a Ferrari but using bicycle tires.

Self-drilling Solar Hanger Bolt is a specialized fastener designed specifically for quickly and securely

Photovoltaic panel and purlin connection screws

attaching solar panel mounting rails directly to the structural steel purlins of a metal roof.

Fastener length = panel thickness + 20mm for steel purlin. Fastener length for timber purlin please refer to EJOT Technical.
