Battery cabinets are engineered for an uninterrupted power backup source to support the continuous operation of your critical facility.

The smart, safe, and cost-effective solution for peak-shaving, backup power, and sustainable energy optimization. Cut your electricity bills while ensuring reliable power supply for your facility.

Empower your off-grid projects and grid-support applications with a reliable outdoor battery storage cabinet from TOPBAND. Engineered for harsh climates and demanding workloads, our outdoor ...

With advanced BMS intelligence for precise State of Charge (SoC) and State of Health (SoH) tracking, these battery cabinets simplify installation, reduce maintenance, and optimize runtime.

Yes, an outdoor energy storage cabinet is designed with weather-resistant enclosures, typically rated IP54 or higher, ensuring safe and stable performance in harsh environmental conditions.

IP54 rated cabinet provides environmental protection for critical IT and industrial applications. Built-in HMI display screen for hands-on or remote monitoring and control.

High-capacity modular design that can be scaled from 215kWh to multi-MWh configurations. IP54-rated outdoor cabinet that withstands extreme temperatures, dust, and moisture. Real-time load ...

High power, long lifespan, low temperature resistance, and ultra safe battery: designed specifically for -40 °C environments, capable of providing over 20000 cycles, with extremely high fire resistance and ...

Our battery charging cabinets are more than enclosures--they are risk mitigation tools, compliance enablers, and asset protectors. With optional customization available, we're ready to meet even the ...

# Power storage cabinet for office buildings IP54

The Air-cooled C& I (Commercial and Industrial) Battery Energy Storage System (BESS) Cabinet is a versatile energy storage solution designed for a wide range of users across various industries.
