The solar project, located in Orangeburg County, will support Meta's first data centre in South Carolina, which is currently under construction in the Sage Mill Industrial Park near Graniteville. Both the ...

Meta's commitment will support Silicon Ranch's investment in the Orangeburg County solar farm, adding a new energy generation resource to the fast-growing statewide electric cooperative system. ...

Silicon Ranch will partner with Columbia-based Central Electric Power Cooperative to build a 100-MW solar farm that will support Meta's first data center in South Carolina.

Meta, Silicon Ranch, and Central Electric Power Cooperative are teaming up to bring 100 megawatts of new solar capacity online in Orangeburg County, South Carolina.

Entergy Louisiana is developing three natural gas-powered turbine generators capable of producing 2,250 megawatts to power Meta's data center coming up in Louisiana. With an investment exceeding \$100 ...

Silicon Ranch will develop, own, and operate these solar PV projects, primarily in underserved communities in Arkansas and Louisiana.

By integrating solar energy production with regenerative land management, Silicon Ranch demonstrates that clean power generation and ecological health can go hand in hand. A key feature of the Orangeburg County ...

Meta's first data centre in South Carolina will be powered by a major new solar project through a partnership with Silicon Ranch and Central Electric Power Cooperative. The 100 MW solar farm, set to be ...

Located in Orangeburg County, the solar farm will be Silicon and Central's fourth project together and the 18th infrastructure project between Meta and Silicon, the solar developer said. Working with system ...
