The project aims to meet the full energy needs of both the Vatican State and Vatican Radio using solar technology integrated with agricultural activity.

Italy has agreed to a Vatican plan to turn a 430-hectare (1,000-acre) plot of land north of Rome into a vast solar farm that will generate enough electricity to meet the needs of Vatican...

Pope Francis has ordered the construction of a solar power plant to supply the Vatican's electricity needs. He did so with the apostolic letter in the form of Motu proprio Fratello Sole,...

Located on the edge of Rome, the 424-hectare site houses the transmission facilities for Vatican Radio, thanks to a 1951 agreement between the Holy See and the Italian State.

The Vatican is now completely powered by a farm that sports solar panels to help shade-tolerant crops thrive. This new coupling of solar and agriculture is growing fast.

On May 29, 2025, the Vatican City officially transitioned to solar power, marking a significant shift in the European energy landscape. The heart of this change is located at Santa Maria ...

Italy agreed Thursday to a Vatican plan to turn a 430-hectare field north of Rome, once the source of controversy between the two, into a vast solar farm. The Holy See hopes it will generate...

To model what this could look like, he announced that solar panels would be installed on a Vatican-owned property outside Rome, and the power generated from that could supply all of ...

Italy agreed Thursday to a Vatican plan to convert a 430-hectare (1,000-acre) field at Santa Maria Galeria--about 35 kilometers (20 miles) north of Rome--into a large solar farm intended ...

This dual-purpose system combines solar energy production with agricultural land use, allowing crops and

Solar panels vatican city

solar panels to coexist on the same property. Vatican City joins Albania, Bhutan, ...
