What is a solar drain clip?

The solar drain clip is a solar panel accessory designed to divert water and accumulated dirt away from the panel and onto the ground. This device clips onto the solar panel frame to remain in place and draws water away from the solar panel allowing the water to drain. This keeps the solar panel clean which is key for optimum performance.

How do I install a drainage clip on a solar panel?

Install one clip near each corner of the solar panel for optimal drainage performance. For larger panels, additional clips may be installed for enhanced support. Check that all clips are firmly attached and properly aligned.

What is a Panduit solar drain clip?

Panduit Solar Drain Clip enhances drainage by directing water off the panel surface, minimizing residue buildup and reducing the need for frequent cleaning. By keeping a clean panel surface, it helps to maintain consistent energy generation and prolongs the system's efficiency.

What is a superior water drainage clamp?

Optimize Solar Panel Performance with Superior water Drainage clamp. Built with premium-quality Stainless Steel 304, this innovative solution ensures effective drainage of water, mud, and debris from photovoltaic panels, enhancing energy output and extending the lifespan of your system. If playback doesn't begin shortly, try restarting your device.

What Is a Solar Water Drain Clip, and How Does It Work? A Solar Water Drain Clip is a compact, durable device designed specifically to address a common but damaging issue for solar ...
