Integrates seamlessly with the complete SolarEdge Home ecosystem using SolarEdge Home Network, offering a single source for warranty, support, and training, to streamline logistics & operations

SolarEdge Home Storage and Backup Our highly efficient DC-coupled Batteries store excess solar energy for powering the home when rates are high or at night. When installed with our Backup ...

datasheet. Installations with multiple SolarEdge Home Batteries connected to a single inverter require a pair of SolarEdge branch connectors (DC + and DC -) per battery, excluding the last battery.

For compatible inverter information, see the SolarEdge Home Hub Inverter for North America datasheet and the SolarEdge Home Hub Inverter for North America Assembled in North America datasheet.

It features a usable energy capacity of 9700 Wh, a peak roundtrip efficiency of 94.5%, and multiple safety certifications, including UL standards. The battery supports flexible installation options and ...

The SolarEdge Home Battery is designed for use with SolarEdge Home Network for wireless communication. The inverter might require a matching SolarEdge Home Network Plug-in (more ...

Integrates with the complete SolarEdge residential offering, providing a single point of contact for warranty, support, training, and simplified logistics & operations

As of January 2025, available for batteries connected to new installations of SolarEdge Home Hub Three Phase inverters. Valid for new and existing sites. For warranty details, please refer to the SolarEdge ...
