Utility EWS AG and developer MW Storage have completed the expansion of a battery energy storage system (BESS) project in Switzerland from 20MW to 28MW, making it the country's ...

Flexbase Group has begun construction on what could become one of Europe's largest flow battery storage installations, breaking ground on an 800 MW/1.6 GWh redox flow system in ...

At Schindler Group's global headquarters in Ebikon (Canton of Lucerne), Energy Vault has deployed a 2 MW/2-hour B-VAULT FlexGrid system, the company's first installation in Switzerland.

Sustainable, modular, grid-scale battery energy storage solutions with CO2-certificate. For industrial and commercial applications.

We can help you maximize your energy output via smart storage solutions across the value chain, from manufacturing to recycling. We understand the technology and have deep industry experience, ...

Switzerland is preparing to launch its largest battery storage facility in Bonaduz, marking a key milestone in the country's shift toward sustainable energy.

German energy storage outfit Intilion is to construct one of Switzerland's largest battery storage systems for Swiss company Primeo Energie. Intilion will install a 65MWh battery energy ...

Battery storage systems are crucial for the energy transition. Find out how Swissgrid is driving forward their integration into the grid.

LMB was developed to meet the need for cheap and robust large battery systems for the grid. Its design consists of three layers of liquid metal kept at a high temperature, all three active components being ...

Against this backdrop, Axpo is investing in one of Switzerland's largest battery storage facilities, as well as

several projects in neighbouring European countries.
