Are solar panels a scam?

Scammers often advertise "\$0 down on owning solar panels" or "solar panels at no cost" but don't disclose that the homeowner won't own the panels. Lease and PPA agreements typically prevent homeowners from benefiting from most federal and state incentive programs and also have hidden fees and unfriendly financial terms.

What are the most common solar scams?

One of the most prevalent solar scams involves misleading lease agreements or power purchase agreements (PPAs). While these financing options are legitimate ways to access solar energy, unethical companies may misrepresent the terms or benefits of these agreements.

How do I avoid solar scams?

Here are some of our recommendations for avoiding solar scams: The saying "there's no such thing as a free lunch" applies when shopping for solar! If you see ads on social media or have a door-to-door salesperson stop by your home and share special programs that pay you to go solar, they're likely not legitimate.

Are there any solar scams in Oklahoma?
