---

In a landmark achievement that redefines the global energy landscape, Abu Dhabi has successfully commissioned a gigascale renewable energy project that addresses the single biggest ...

Solar with storage in the Gulf has the advantage of matching well to demand patterns. Air-conditioning accounts for up to 70 per cent of the UAE's electricity use during summer. With ...

In a remarkable advancement for renewable energy, the United Arab Emirates, under the auspices of His Highness Sheikh Mohamed bin Zayed Al Nahyan, President of the UAE, has ...

Learn how Abu Dhabi's 24/7 Solar Project combines 5.2 GW PV with 19 GWh battery storage to deliver gigawatt-scale clean power, day and night.

The UAE has launched what it says is the world's first and largest 24-hour power project, combining solar photovoltaic with battery storage to deliver 1 gigawatt of baseload electricity.

The United Arab Emirates (UAE) is cementing its position as a global leader in renewable energy with the launch of the world's first giga-scale, round-the-clock solar photovoltaic ...

The United Arab Emirates (UAE) has launched the world's first large-scale round-the-clock gigascale energy storage project in Abu Dhabi, combining solar power and battery storage in a ...

By launching the world's largest solar PV and Battery Energy Storage System, Abu Dhabi is setting a new global standard for sustainable energy development and innovation.

By capturing excess energy during peak sunlight hours and storing it for later use, the UAE ensures a steady and reliable power supply even at night. This synergy between solar and ...
