Italy has agreed to a Vatican plan to turn a 430-hectare (1,000-acre) plot of land north of Rome into a vast solar farm that will generate enough electricity to meet the needs of Vatican...

Pope Francis has ordered the construction of a solar power plant to supply the Vatican's electricity needs. He did so with the apostolic letter in the form of Motu proprio Fratello Sole,...

Vatican City is on track to become the 8th country in the world to generate 100% of its electricity from renewable energy, following Pope Francis' announcement about plans to build a large solar plant.

These seven nations each generate over 99.7% of their consumed electricity through geothermal, hydro, solar, or wind power sources. The project represents a significant financial ...

One of the most notable solar projects in Vatican City is the solar roof of the Paul VI Audience Hall. The photovoltaic panels installed here generate approximately 300,000 kilowatt-hours of energy annually.

Vatican City is set to become the eighth country in the world to generate 100 per cent of its electricity from renewable energy after Pope Francis announced plans to build a solar plant.

The world's smallest country just made a big move: Vatican City is now powered entirely by solar energy, setting an example for global climate action.

Italy agreed Thursday to a Vatican plan to turn a 430-hectare field north of Rome, once the source of controversy between the two, into a vast solar farm. The Holy See hopes it will generate...

Vatican City has joined Albania, Bhutan, Nepal, Paraguay, Iceland, Ethiopia and the Democratic Republic of Congo to become one of just eight countries in the world to generate 100% ...

The project aims to meet the full energy needs of both the Vatican State and Vatican Radio using solar

technology integrated with agricultural activity.
