How do I choose a portable solar panel?

Consider the devices you plan on charging when selecting the available ports on the panel. Most portable solar panels will come with a USB connection - thankfully, this is the most common use connector for devices, and if you have the right USB lead for your phone, headphone, or other objects, you will be able to easily connect.

Will portable solar panels work on a cloudy day?

Yes, portable solar panels will work even on a cloudy day. The only difference is that it will generate a much smaller amount of energy than it would on a clear, sunny day. Therefore, you should be more sparing with how you use your panel on days such as these. Getting out and exploring is one of life's greatest joys.
