general solar solution sales. We have offices in Ondangwa and Windhoek. We service the entire Namibia.

It ...

Lithium Batteries are compact with a higher energy density and zero maintenance. Various battery sizes ranging from 4kWh to 65kWh in most common system voltages of 12 VDC, 24VDC and 48VDC are ...

What is HJ mobile solar container?The HJ Mobile Solar Container comprises a wide range of portable containerized solar power systems with highly efficient folding solar modules, advanced lithium battery ...

It is a submersible borehole pump that is operated and powered either with solar energy, wind power or even a AC power source. It is a very flexible pump to cater for endless applications.

The project will be constructed in two phases, with the first phase investing Yuan 3 billion to install lithium battery cells and modules BMS, PACK, Container and other production lines; The second phase investment ...

Technological advancements are dramatically improving solar storage container performance while reducing costs. Next-generation thermal management systems maintain optimal operating temperatures with 40% ...

We provide a full range of renewable energy components, including solar panels, MPPT charge controllers, and hybrid inverters. These components are carefully selected to maximize energy efficiency, reduce carbon ...

The included lithium iron phosphate (LiFePO₄) battery ensures exceptional performance, safety, and longevity, with pre-programmed settings for optimal output. This setup is meticulously configured at our factory, ...
